The **MiniLite Energy Saver** water and dust proof, consists of a polycarbonate body with UV stabilized polycarbonate lenses and is attached to the main body, allowing maximum light output.

Available in single and double 20w compact fluorescent lamps, as well as for LED version 7w,9W and 12W LED corn globes.

Rubber gaskets are fitted between the lenses and main body to ensure the protection rating. Voltage 110V – 220V supply.

MiniLite installation via power connection box. Lead and plug available on request. The MiniLite Energy Saver are suitable for underground and surface areas.

The luminaires can be prewired to any configuration, to suit any specific area.

APPLICATIONS:

- Walkways Lighting
- Conveyor belts Lighting
- Substation Lighting
- Wash bays

Ingress Protection: IP 66

BD-PFC-042-F7 Rev. 1 (April 2017)
