The **MiniLite - LED** water and dust proof, consists of a polycarbonate body with UV stabilized polycarbonate lens. The clear lens allows maximum light output. Available in 15W LED (110 LED's). Power factor 0.93, with a 50000 hour rated life expectancy.

Rubber gasket is fitted between the lens and main body to ensure the protection rating. Voltage 90V – 250V supply.

MiniLite installation via power connection box. Lead and plug available on request.

The MiniLite LED is suitable for underground and surface areas.

The luminaires can be prewired to any configuration, to suit any specific area.

APPLICATIONS:

- Walkways Lighting
- Conveyor belts Lighting
- Substation Lighting
- Wash bays

Ingress Protection: IP 65

BD-PFC-043-F7 Rev. 1 (April 2017)

Nordland reserves the right to change any specification or design without prior notice.
